

Success at the expo in Geneva:

Massive interest in GKD's process belt solutions at the INDEX 2014

WORLD WIDE WEAVE

Picture 1-2: The GKD business unit WEAVE IN MOTION presented ultra-flexible, self-tracking woven metal belts and innovative belt coatings.

Picture 1-2 © GKD

Picture 3 © GKD/Strahm Hi-Tex Systems AG

Picture 4 © GKD

Picture 3: Customised process belt solutions made by GKD offer a wealth of potential for optimisation in demanding production processes.

Picture 4: V-crimp type belts with ultra-stable special plastic cables woven in parallel to the running direction.

We will be happy to send you the desired images in printable resolution by e-mail.

These images are meant exclusively for use in connection with this particular press release on the company GKD – GEBR. KUFFERATH AG. Any other use beyond this expressed purpose, especially use in connection with other companies, is strictly prohibited.
