

## GKD process belt proves a hit at Techtextil: Glass hybrid belt for nonwovens processing

Picture 1: Anti-stick coated glass hybrid belts for use in single-belt and double-belt dryers combine low weight with transverse stability thanks to its use of glass strands that are interwoven in the running direction.

Picture 3: Industrial mesh attracted many visitors to the GKD stand.

Picture 2: Glass hybrid fabric belts from GKD guarantee significantly better process performance thanks to their reliable anti-stick protection and high degree of transverse stability.

Picture 4: Metal mesh solutions such as the transparent media façade system *Mediamesh* with integrated LED profiles attracted numerous visitors to the GKD stand.
